

Positive Abundance Affirmations

Feel the feelings of the outcome(s) you are wanting to attract.

Positive affirmations are a tool to help compliment the action we are taking in our lives.

"Carefully watch your thoughts, for they become your words. Manage and watch your words, for they will become your actions. Consider and judge your actions, for they have become your habits. Acknowledge and watch your habits, for they shall

become your values. Understand and embrace your values, for they become your destiny." -Mahatma Gandhi

By changing our beliefs, we can cause changes in our lives. Remember how powerful our thoughts are in creating our reality. Replacing old beliefs with new ones takes time, patience and repetition.

A visualization video is a tool you can use each day to focus your subconscious mind toward the things you want to create in your life.

Money is nothing more than a tool for an energy exchange to help us demonstrate appreciation. A collection of metal round objects and small pieces of paper is not what we desire. What we want is what this tool, called money, can do for our fullest expression of self.
